 Story: Neither one of them really belongs in our world. One appears to be a high fashion model, but she's really a Hybrid, the result of experimentation gone wild. The other seems to be human, but is really the reincarnation of a man who did years before. Their worlds rarely cross -- but when a demonic force arises that threatens them both. Valeria the She-Bat and Spawn join forces to do battle with the new threat.
Valeria the She-Bat #3 kicks off a two issue crossover between Continuity's Valeria the She-Bat and Image's Spawn. Neal Adams is writing and illustrating the series, but he will be joined by Todd McFarlane, who will illustrate as much of the story's Spawn segment as time allows. Two great comic artists, two great heroes, two great issues
